## **Preface**

New Summerfield ISD is committed to providing program and curricular options to meet the unique needs of the gifted/talented student. This document presents the official policies, processes, and procedures for organizing, operating, and evaluating the gifted and talented services at New Summerfield ISD. The appendices contain the instruments and forms that may be used to implement and maintain the program components.

## **Definition of Gifted and Talented Students**

“Gifted and talented student” means a child or youth who performs at or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment and who exhibits high performance capability in an intellectual, creative, or artistic area, possesses an unusual capacity for leadership, or excels in a specific academic field (TEC Subchapter D §29.121).

## **Philosophy/Rationale**

The philosophy of New Summerfield ISD reflects an understanding of the uniqueness of individual gifted/talented students. Because the learning characteristics of gifted and talented students dictate learning experiences that differentiate from those provided for them in the regular school program, the district recognizes that special provisions must be made for these students in order to stimulate and maximize their achievement as well as provide for their social and emotional needs.

New Summerfield ISD recognizes that gifted and talented students are found in all cultures, socioeconomic groups, geographic locales, and environments. New Summerfield ISD will serve the needs of those students who perform at or show the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment.

## **Program Objective**

Students who participate in services designed for gifted/talented students will demonstrate skills in self-directed learning, thinking, research, and communication as evidenced by the development of innovative products and performances that reflect individuality and creativity and are advanced in relation to students of similar age, experience, or environment. High school graduates who have participated in services for gifted/talented students will have produced products and performances of professional quality as part of their program services.

New Summerfield ISD will:

- comply with gifted/talented accountability standards and monitor the effectiveness of assessment and services for gifted/talented students.
- implement identification procedures and progress monitoring that allows students to demonstrate and develop their diverse talents and abilities.

- implement viable service options which provide a research-based learning continuum that is developed and consistently implemented throughout the district to meet the needs and reinforce the strengths and interests of gifted/talented students.
- meet the needs of gifted/talented students by modifying the depth, complexity, and pacing of the curriculum and instruction ordinarily provided by the school.
- ensure all personnel involved in the planning, creation, delivery and administration of services to gifted/talented students possess the knowledge required to develop and provide differentiated programs and services, and
- involve family and community members in services designed for gifted/talented students throughout the school year.

## I. Program Service Design

Gifted and Talented services at New Summerfield ISD are designed for students who are identified as gifted and talented according to New Summerfield ISD's identification procedures. Program service design will include one or more of the following options:

2. **Push-in:** A gifted/talented 30-hour foundational and 6-hour update trained teacher provides occasional services to a student while the student is in their regular classroom.
3. **Full-time Gifted Only:** The student receives the majority of their core subjects from teachers with gifted/talented 30-hour foundational and 6-hour update training with peers who are all identified as gifted/talented.
4. **Full-time Inclusion:** The student receives a majority of their core subjects from a specific teacher or teachers with gifted/talented 30-hour foundational and 6-hour update training, but the classes may include peers who are not identified as gifted /talented.
5. **Special Day School:** A special school which is administratively separate from regular schools and is organized to serve gifted/talented students with gifted/talented 30-hour foundational and 6-hour update trained teachers.

In accordance with the *Texas State Plan for the Education of Gifted/Talented Students*, the district is accountable for the following:

- Information concerning special opportunities is available and disseminated to parents and community members.

- Services for gifted/talented students are comprehensive, structured, sequenced, and appropriately challenging, including options in the four (4) foundation curricular areas.
- Gifted/talented students are ensured opportunities to work together as a group, work with other students, and work independently during the school day as well as the entire school year as a direct result of gifted/talented service options (19 TAC §89.3(1)).
- Flexible grouping patterns and independent investigations are provided throughout the program design/services.
- Out-of-school options relevant to the students' areas of strength are provided by school districts whenever possible (19 TAC §89.3(3)).
- Local board policies are developed that are consistent with State Board of Education rules on credit by examinations (19 TAC §74.24) and early high school graduation opportunities (TEC §56.203).

3. At the kindergarten level, as many criteria as possible, and at least three, are used to assess students who perform at or show potential of accomplishment relative to age peers.
4. In grades 1 - 12, qualitative and quantitative data are collected through three (3) or more measures and used to determine whether a student needs gifted/talented services.
5. Final determination of students' need for gifted/talented services will be made by a committee of at least three local district or campus educators who have received training in the nature and needs of gifted/talented students and who have met and reviewed the individual student data.
