New CDC and TEA Guidelines for COVID – 19

Positive for COVID 10

Can return to work / school when:

- 1. After remaining home for 10 days from when symptoms began; and
- 2. Must be fever free for 24 hours without the use of medication; and
- 3. Symptoms must be improving.

Close Contact or Exposed to someone not in my household.

Can continue coming to work or school as long as no symptoms are experienced.

If person exposed starts showing symptoms of COVID – 19, that person should start self-quarantine and follow the same 3 steps for someone that has tested positive for COVID – 19.

If would like to return to work or school before the required stay home period, a negative test or an alternate diagnosis would be required. Close Contact or Exposed to someone in my household.
